

K-Love serves the local communities by broadcasting wholesome family friendly music and commentary. If K-Love were displaced the local communities would no longer have the positive reinforcement that K-Love gives.

K-Love is not supported by business advertisements, but is a LISTENER SUPPORTED station, and the fact that it receives enough funding from it's LISTENER'S to continue to operate, not only shows that it is needed, but that it is WANTED by the general public.

Please do not make any changes, which would diminish K-Loves ability to serve the public which WANTS to hear it.
